

**Request for Proposal**  
**Lushootseed Typeface Project**  
**Amendments #2 – 10/02/2008**

## Executive Summary

The purpose of this document is to outline the changes made to the original Request for Proposal (RFP). Additionally, clarifications are provided. We request that you please take any amendments and clarifications into consideration when responding to this RFP.

## Amendments #2 to RFP as of 10/02/08

The following amendments have been made to the RFP.

1. Requirement 1.4 – Font Format – global hinting – has been updated and clarified:
  - a. Original: Font format – global hinting
  - b. New: Required: Global Hinting**
  - c. New: Required: Font needs to support OpenType GSUB and GPOS lookups**
  - d. New: Optional: break-out for CFF outlines**

## Clarifications to RFP as of 10/02/08

The following clarifications have been made to the RFP.

1. Clarification request regarding Requirement 1.1:
  - a. Question:

“Not all the pre-composed characters on the keyboard are in Unicode (such as c+caron+comma accent) and these will have to be compiled as multiple entities. This is just a small detail, but is just to say that the font and keyboard may have to behave somewhat differently than existing fonts and keyboards in order to be Unicode-compliant. There are also dependencies with the software you are to use the keyboards and fonts in. You may already be aware of all these issues.”

- b. Response:

This is something we're aware of and if any bugs with software beyond what we already know will be worked out in testing.
